

## IE9 RollBack To IE8 On Windows Vista & Windows 7

Open **Control Panel**, then go to **Programs -> Programs and Features** or **Uninstall a program**.

Alternatively, just type **appwiz.cpl** into Start Search area and hit Enter.

1. Click on **View installed updates** link in left sidebar.

2. Click to select and highlight **Windows Internet Explorer 9**, and then click on **Uninstall** button in toolbar or right-click on the update and select **Uninstall** option.

3. Restart PC when prompted. After restarting, IE9 will be removed from the system.
